

SLOWING DOWN

to Speed Up

<https://tinyurl.com/4vm723xw>

Working **harder and faster** is not the answer.

In fact, it often makes things **more complex**,
uses **more energy**,
and in the best cases, **only solves part** of a challenge.

When teams **slow down** they eventually go
deeper and faster into achieving their objectives.

They deal **more effectively** with challenges and
they use **less energy**.

What Can I Do

Accept that challenges
are complex

Pace the speed of your work
Slow down to speed up!

Trust that solutions are
always available

Focus the right attention
and intention
