

Guide to Pennsylvania's Infant/Toddler Early Intervention Provider Registry

Creating an Early Intervention Specialist Account

Do I Need to Create an Early Intervention Specialist Account?

Two groups of people need to complete an account in the Infant/Toddler Early Intervention Provider Registry:

1. Infant/Toddler Early Intervention Providers and Service Coordinators – any Pennsylvania EI Staff who must document training hours for an Infant/Toddler EI program should create an Early Intervention Specialist account. This includes administrators/supervisors who may act as a substitute for Service Coordinators.
2. Infant/Toddler Early Intervention Registry Administrators - Each EI provider agency, including those providing Service Coordination services, should have a person designated as the Infant/Toddler EI Provider Registry Administrator. The county Infant/Toddler EI Coordinator or designee should also be designated as the EI Provider Registry Administrator. The Registry Administrator is responsible for administering the registry, including verifying employees who have created an account, monitoring employee participation, and accessing reporting features.

*Please note that you will first create **an account in the I/T Early Intervention Provider Registry** with your email and password. Once this is created, you will click on **“Create an Early Intervention Specialist Account”** to enter and upload additional information specific to Early Intervention. Directions are listed below.

What Information Do I Need In Order to create an Early Intervention Specialist Account?

To make the process quicker, please gather the following information. You will be asked to upload documentation. Before you get started, you may wish to scan the documents into your computer or take a photo of these documents on your phone.

- The official agency name for your place of employment.
- Documentation of your educational background
- Documentation of your qualifications (ex., clearances, licenses, First Aid, CPR, etc.)

When must training hours be entered into the Provider Registry?

By August 1st of each year, all Service Coordinators and EI providers must have entered your training hours for the previous fiscal year (July to June) into the I/T EI Provider Registry. If you are a new Service Coordinator or EI provider, you will need to set up your Early Intervention Specialists account prior to entering your training hours.

What is the I/T EI Provider Registry?

Infant/Toddler Early Intervention Provider Registry is a statewide database to track the qualifications, credentials, and training requirements of EI providers and Service Coordinators. It allows EI agencies and programs to accurately track ~~of~~ training requirements. It is a secure, online tool for EI providers and Service Coordinators to document professional qualifications and training hours. The I/T EI Provider Registry documentation can follow EI providers and Service Coordinators if they move to a new employer.

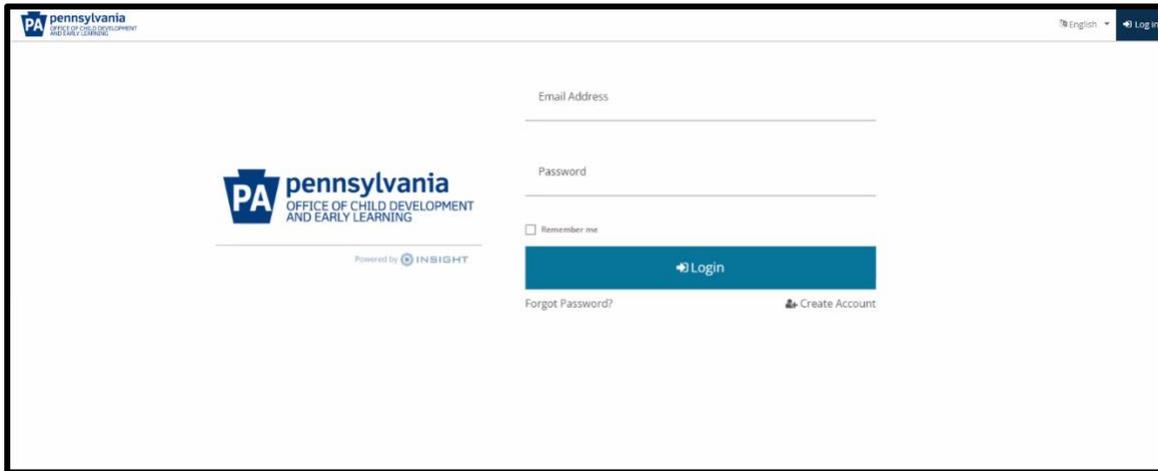

What if I have a question?
